VITINKA, BOSNIA AND HERZEGOVINA, Raševo

VITINKA Bosnia and Herzegovina

Starting from 1880 is the mineral water source from the Kozluk region used as a bottled water exported to the whole Austro-Hungarian region. Later the mineral water Vitinka is extracted from the source which is 160m below the earth. In 1974 is the Vitinka AD Kozluk founded and today this company produces not only mineral water Vitinka but also various types of carbonated and non-carbonated alcohol free drinks.

Reference card
